DIVISION OF COMMUNICATIONS

The Division of Communications assists the Commission in carrying out its duties as prescribed by the Code of Virginia. It oversees the continued implementation of competition in landline telecommunications markets with the goal of achieving an effective regulatory environment that balances the advancement of competitive markets with the protection of consumers. The Division assists the Commission in developing, implementing, and enforcing alternatives to traditional forms of regulation as competitive markets evolve. It monitors, enforces, and makes interpretations on certain rates, tariffs, and operating procedures of investor-owned telecommunications utilities. The Division enforces service standards, assures compliance with tariff regulations, coordinates extended area service studies, enforces pay telephone regulations, and assists in carrying out provisions of the federal Telecommunications Act of 1996. The Staff testifies in rate, service, and generic hearings, and meets with the public on communications issues and problems. The Division maintains territorial maps, performs special studies, monitors construction programs, and investigates and resolves consumer inquiries and complaints. The Staff also monitors developments at the federal level, and prepares Commission responses where appropriate.

At the end of 2005, there were under the supervision of the Division:

14 Incumbent Investor-owned Local Exchange Telephone Companies
168 Competitive Local Exchange Telephone Companies
114 Long Distance Telephone Companies
292 Payphone Service Providers
